Church Planting Overview

1. Why reach your world and multiply churches

- ◆ The need for reaching the lost will be presented as we discuss the nature of God, the nature of the church, the nature of the culture, and the Gospel.

2. Healthy Church DNA

- ◆ Through the exploration of Acts 2 and Ephesians 4, we will determine the DNA of a healthy church. We will also discover our own personal church default preference.

3. Disciple-making Principles

- ◆ Disciple-making is the God-given process for reaching the lost, growing believers to maturity, and reproducing followers of Jesus. We will discuss the biblical principles that will assist us in being effective disciple-makers both individually and corporately.

4. Practices of a multiplication

- ◆ We will discuss some practices that will help our churches make multiplication an active part of our church fabric. We will explore how to keep the vision of multiplication active in our church.

5. Church Planting Principle and Overview

- ◆ We will explore the biblical principles that drive our highly relational disciple-making approach to church planting.

6. Life Cycle of a church

- ◆ All churches have a life cycle! Where is your church in it's life cycle? What steps do you need to take to refresh your vision to make sure your church is healthy?
