

## Community Church Planting Evaluation

How do you know if you should consider being part of a church plant? Ask yourself these questions:

1. *Does my community need a church that takes a highly relational disciple-making approach to ministry?*
2. *Is my community less than 40% evangelical believers?*
3. *Do I know any other families in my community who desire a more Biblical approach to reaching their friends with the Gospel?*
4. *Do I know lost people in my community? If I lead them to Christ, would I have to take them out of my community to introduce them to a healthy disciple-making church?*

If you answered yes to two or more of these questions, you may need a church plant in your community. Please contact Pastor Bob Nieuwendorp at [bob@ncdefca.org](mailto:bob@ncdefca.org) or 612-338-1716 for follow-up information.
